Training Courses

All courses are held in our offices in Fordingbridge and are run in small groups so you will get individual attention.
Each day counts as 5 CPD points for all qualified therapists. (excluding ** courses)

Time: Arrive 9.30 for start at 10.00 **Finish** 4.00
Cost: £ 75.00 plus VAT
Includes: Training, refreshments, course notes and any materials to use on the day which are then taken home

Blending Your Own Products – Level 1 with Fran McNulty Brown **Date To Be Confirmed**

Level 1 is an excellent opportunity to have a thorough introduction to blending and personalising your own products. This training day is open to all – whether qualified or just beginning with essential oils. Great for refreshing your skills or getting you started.

Blending Your Own Products – Level 2 with Fran McNulty Brown **Date To Be Confirmed**

Level 2 is a follow on course from Level 1 or suitable for people who already have some knowledge of blending your own products but wish to gain more knowledge and experience. You will look into more complicated blends and will leave at the end of the day full of ideas to create your own personal range.

Book Level 1 and Level 2 at the same time and receive a 10% discount (£135.00+vat for both days)

****Product Development with Kim Lahiri** **Date To Be Confirmed**

A course which covers everything you need to know from conception of the idea to getting your products out in the shops – including labelling, insurance, legal matters, health and safety, trading standards etc.

Expand Your Knowledge of Essential Oils with Fran McNulty-Brown **Date To Be Confirmed**

This is a course to introduce you to some of the more unusual essential and carrier oils, how to use them, what they blend with and what they are used for. This course will cover oils such as Argan, Melissa, Myrtle and Seabuckthorn. Ideally this course is for qualified therapists who wish to increase their repertoire of oils.

Charity Products

Each year we chose a charity to raise funds for and use a variety of means to raise money. For 2013 we have chosen Clover House Centre for Children who provide an affordable, integrated, triple-therapy approach, highly effective in helping to alleviate conditions such as dyslexia, asthma, ADHD and Autistic Spectrum Disorders etc.. For more information see their website at http://www.cloverhouse.org/welcome

To raise funds we participate in sponsored events, hold raffles, sell charity items and produce our own charity products to sell.

The following products are produced at our warehouse in the UK and are made using our base products and 100% pure essential oils with a donation being made to charity for each unit sold.

Bath Time Pack - a jute bag containing a bubble bath & body lotion of Beautifully Blue & Perfectly Pink	5.00	£1.50 per pack to Clover House

1. Orders can be placed through our website, by email, fax, post or telephone. In order to avoid communication errors we strongly recommend that orders be placed in writing via our website, email or fax. We guarantee the accuracy of written orders, however, we accept no responsibility for errors as a result of verbal miscommunication.

2. We pride ourselves on the speed of our service. Orders are processed within two working days of being received. We cannot guarantee despatch times in situations affected by circumstances beyond our control. Once the order has been processed, any changes will be treated as a new order.

3. International orders will need to be confirmed before the order is processed, payment is charged, and despatch is made. The order will be held until the customer advises the final confirmation.

4. Due to the volatile nature of the essential oil market, price commitment is made on the placement of order only. We endeavour to ensure accurate pricing on both our catalogue and website. We will do our best to notify our customers of discrepancies due to changes in prices.

5. Whilst we do not impose minimum order quantities, ordering items in bulk can result in substantial savings.

6. If any item is short delivered and has been charged for, New Directions will be more than happy to cover the cost of freight in sending the goods as soon as possible. Please note items are not backordered and need to be re-ordered at the time they become available.

7. We prefer you to provide 24 hours notice before the time of collection so that your order can be invoiced, picked, packed and ready for pick up at the time of your arrival. Pick Up hours are between 9.00am and 5.00pm. If you require same day pick up please call in advance to place your order and arrange a time to collect.

Payment Method

1. All orders must be paid for prior to shipping. Cash payment is only acceptable at our Fordingbridge office.

Quality Assurance

At New Directions we firmly believe that Quality Control is of utmost importance and it is imperative that the most meticulous tests are carried out for every product in our range. Uncompromising quality is a responsibility, which we take seriously. New Directions' commitment to quality is coordinated by our in-house aroma therapist, chief chemist and quality control chemist. The most rigorous processes are implemented to determine the purity and potency of sourced oils. By maintaining this intense level of quality control and developing new methods and techniques, New Directions can ensure superior products.

Quality Control

GLC TESTING : One of the most sophisticated methods of testing, Gas Liquid Chromatography ensures that the most irregular types of adulterants can be found. Every batch of essential oil received must pass this analysis before reaching you.

VISUAL AND SMELL TESTS : Sensory tests are the initial tests conducted. The translucency, colour, viscosity, solubility and smell of the oil have been tested to maintain the quality of an optimum-grade essential oil.

SPECIFIC GRAVITY TESTS : Specific gravity is the density of a substance divided by the density of water. Since water has a density of 1 gram/cm3, and since all of the units cancel, specific gravity is the same number as density but without any units.

REFRACTIVE INDEX TESTS : The ratio of the velocity of light in a vacuum to its velocity in a transparent specimen. The index of refraction is related to the physical structure of the medium through which light is passing. For this reason, the index of refraction is a characteristic of substances that can be employed in identifying unknowns. The higher the refractive index, the greater the amount of dispersion, which increase the brilliance of a material.

ACID VALUE TESTS : The amount of free acid present in fat as measured by the milligrams of potassium hydroxide needed to neutralize it.

HYDROXYL VALUE TEST : A measure of hydroxyl (univalent OH) groups in an organic material.

IODINE VALUE TEST : Also called Iodine Number, a measure of the degree of unsaturation of an oil. The amount of iodine, in grams, that is taken up by 100 grams of the oil. A low iodine value implies a high degree of saturation.

SAPONIFICATION VALUE TESTS : The saponification value is the amount of alkali necessary to saponify a definite quantity of the sample. It is expressed as the number of milligrams of potassium hydroxide (KOH) required to saponify 1 gram of the sample.

HEAVY METAL TESTS : Lead, mercury and arsenic products are tested to be free of detectable levels of these heavy metals.

Combining these tests ensures that the physical and chemical parameters of the oils are thoroughly examined. The thorough and continuous liaising between in-house chemists and aromatherapist ensure that oils that fail these stringent tests are discarded immediately. The result of these tests guarantee that our customers obtain the greatest level of confidence in New Directions and receive only the highest quality products. We welcome our clients to visit our laboratory and see our quality control systems.

CLEAN ROOM : Products are filled in dust free environment
